Design without Limitations

GENESIS HEAT SHIELD

Savannah's New RTC Heat Control Technology

Genesis Heat Shield

Now you can enjoy

- **Clear View:** with our double wall glass technology

Clear View has done away with the need for distractive safety screens. Our double shield glass, protects hands from burning, while you can enjoy uncompromised views of your stunning fireplace.

- **Warm Glass System :** Safety touch glass

Our Warm Glass system, skillfully brings the temperature of the glass down below the stringent standard of 172 degree, while still allowing radiant heat to efficiently heat your room.

- **Easy Clean :** no technician required

With our easy maintenance glass removal system, you won't need a service technician to come and clean your fireplace viewing glass area.

SAVANNAH'S RTC TECHNOLOGY - HEAT

RTC technology combines all three elements of heat transfer to create maximum efficiency

- Radiant - Allowing the heat from the fire to naturally spill into the room
- Thermal - Air flowing up over the radiant heat
- Convection - Gently blowing air into the room

Three Breeze fans combine airflow with 6 variable speeds and 7 flame settings they will maximize room heating efficiency on days when you might need extra heat throughout your room. An unprecedented 42 heating combinations.

Our Technology

- All contained within the fireplace
Which Requires
 - No Gap
 - No Louvers
 - No Heat Dump
- Wood and Drywall - Combustibles ok
- Quick and Simple installation

Create without Limitations

Their Technology

- Intake and Exhaust Louvers mounted below and above the fireplace.
- Heat Dump pipes to dissipate the heat.
- Ceiling gap or gable to dissipate trapped heat from inside the walls.
- Non-combustible, steel studs and concrete board around and above firebox.
- Extensive installation
